

## Eternal Family Game 1-5 players

Object: To gather 5 different picture cards by moving around the clouds.

Easy level:

1. Place button, or marker on the cloud marked "You, Mother, Father, Sister, or Brother.
2. Arrange picture cards in 5 piles and place near the game board. Fathers in one pile, etc.
3. Youngest rolls cube first. Roll number cube and move either to the right or left around the board.
4. If you land on a cloud with a word on it pick up the card indicating that word. Example: You land on "mother", pick up a mother picture card. Tell something nice about "mother". If you land on a colored blank cloud you do not pick up any picture cards.
5. Taking turns, go around the board until you have picked up all five picture cards: Father, Mother, Brother, Sister, and You. (Do not pick up more than one picture card; you only need to collect one of each.)
6. Once you have collected all 5 picture cards work your way to a cloud with an arrow pointing towards the middle (Eternal Family) cloud; there are four.
7. On your next turn you have to roll a 1 to enter into the Eternal Family cloud to win the game.
