Set
of 5

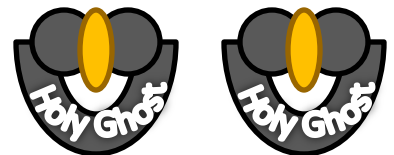

Set of 5

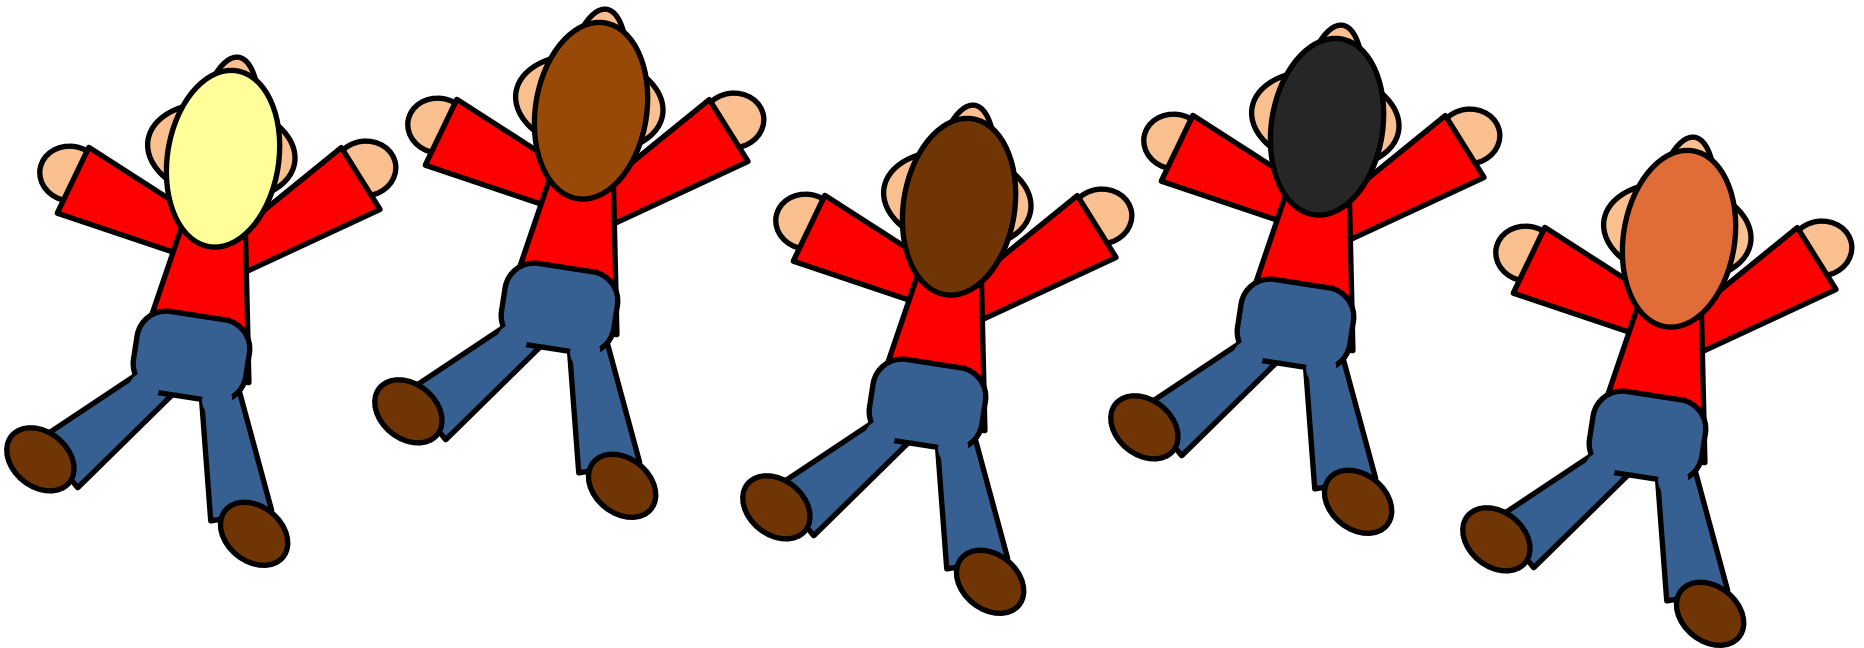

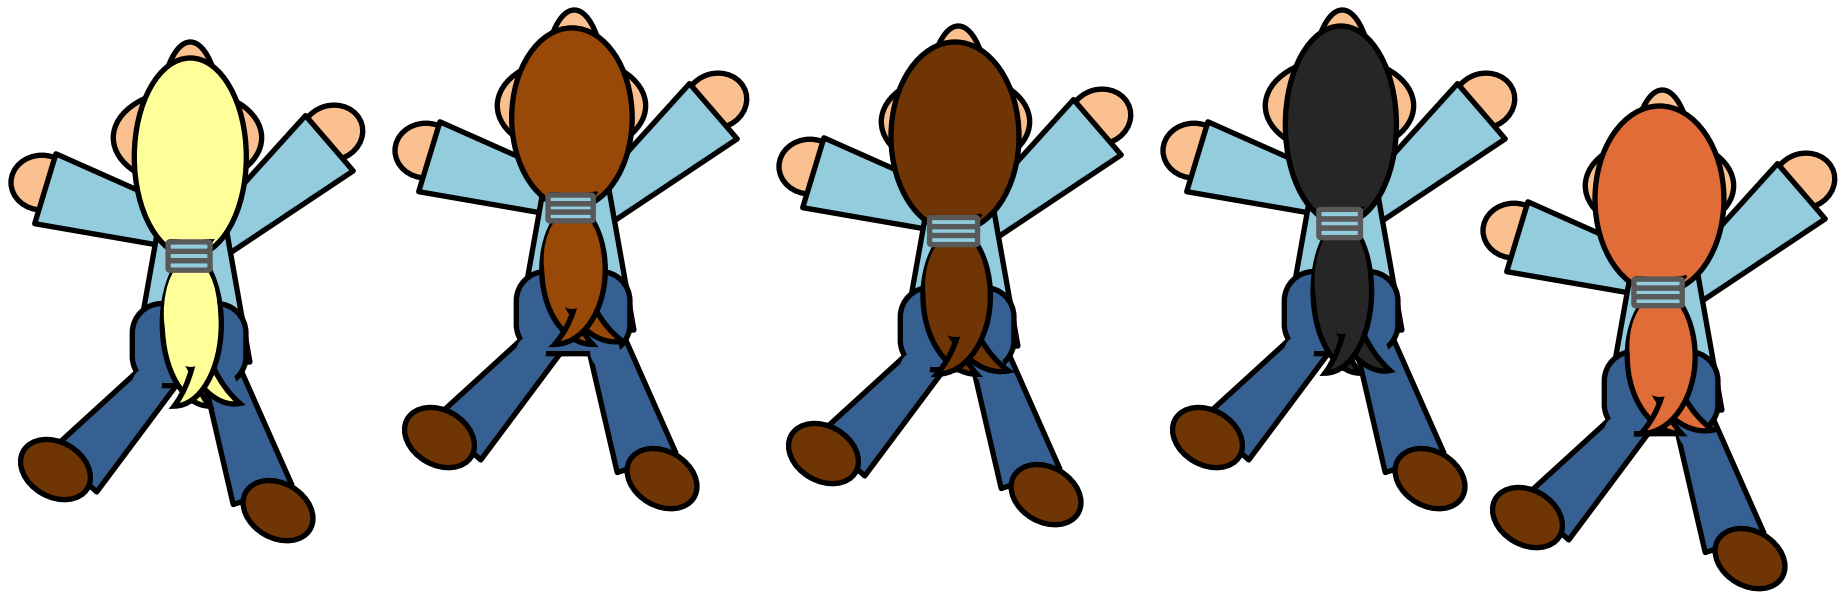

Colored ropes to cut out of you can draw on your own rope OR you can paste on a string, or yarn for the rope.

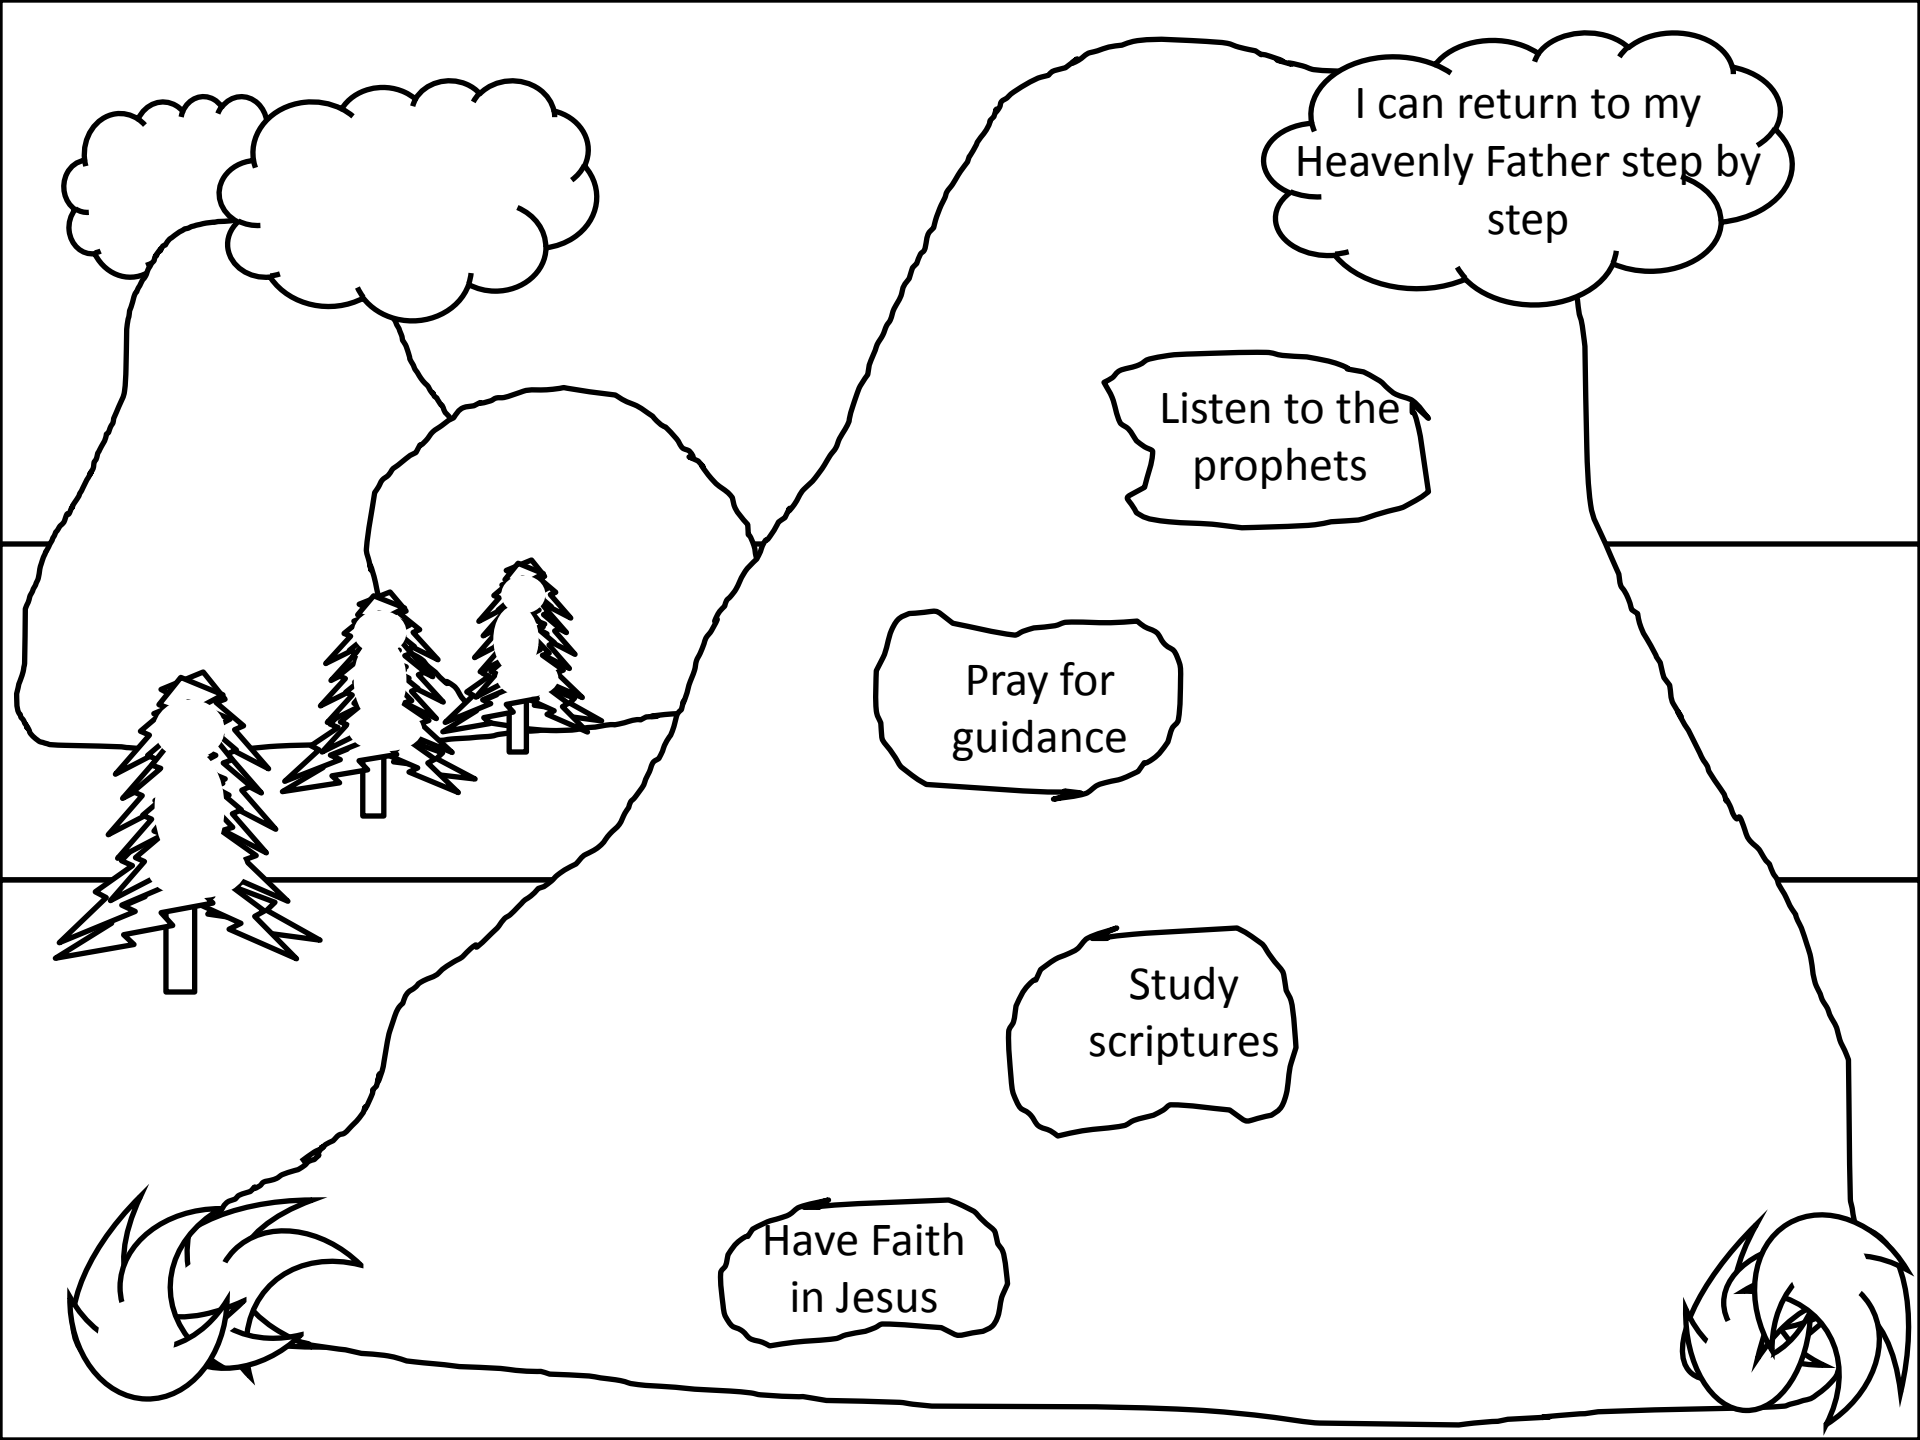

OPTIONAL AND FUN:

You can punch a small hole at the top of the mountain, and one at the bottom. Take a piece of yarn and thread it through the holes and tie a knot in the back of the paper. Then tape the person to the front toward the bottom, so the child can slide the person up and down the mountain. If you do this you **have** to use card stock for the paper. And for the person. If you want you can laminate the person.
