

Rocket Ship Alphabet Matching

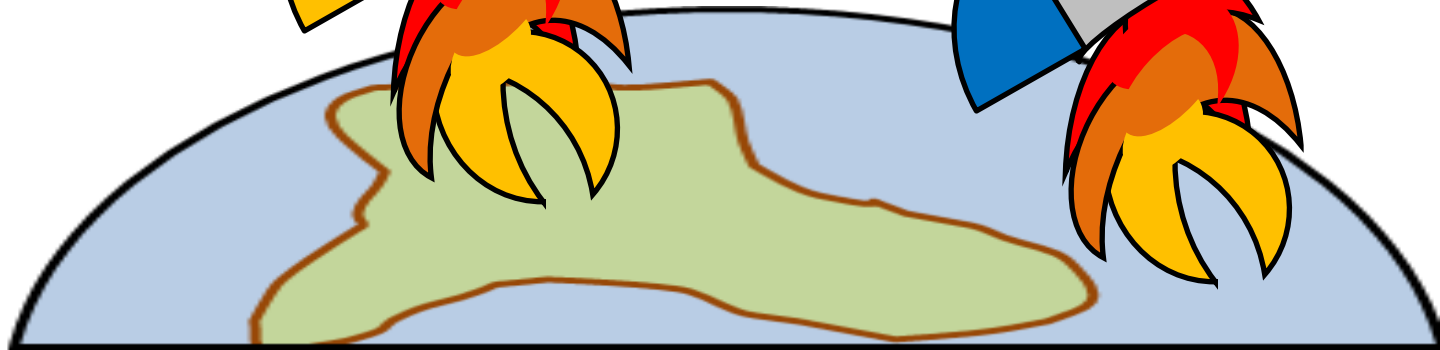

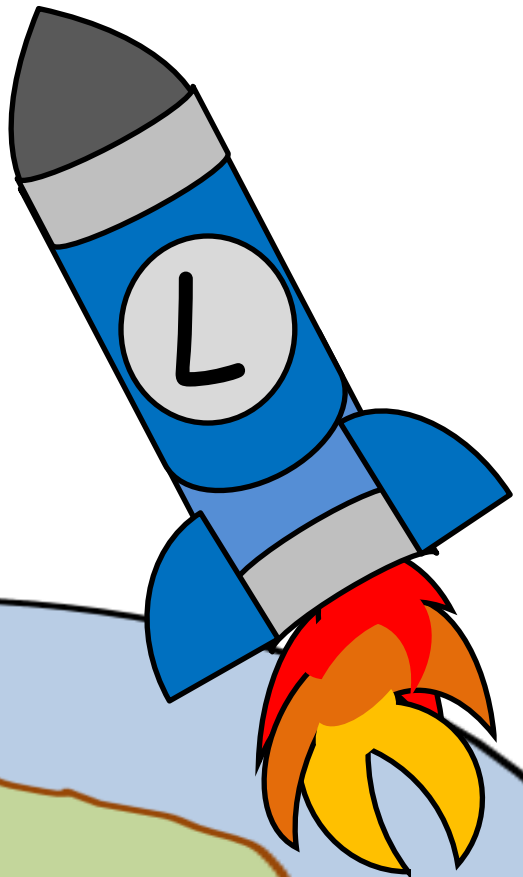

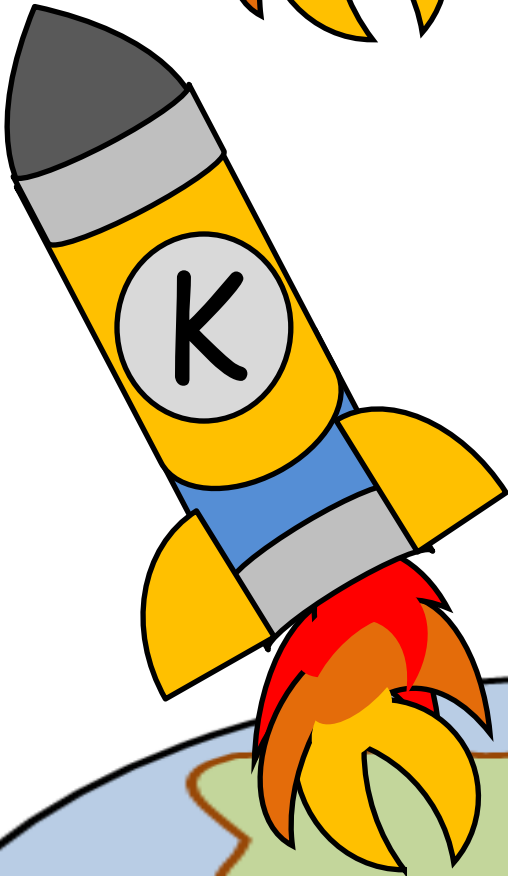

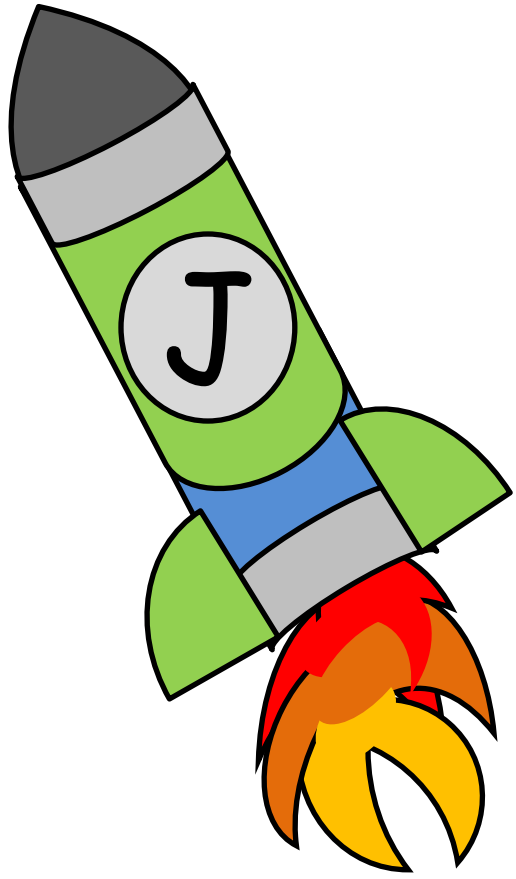

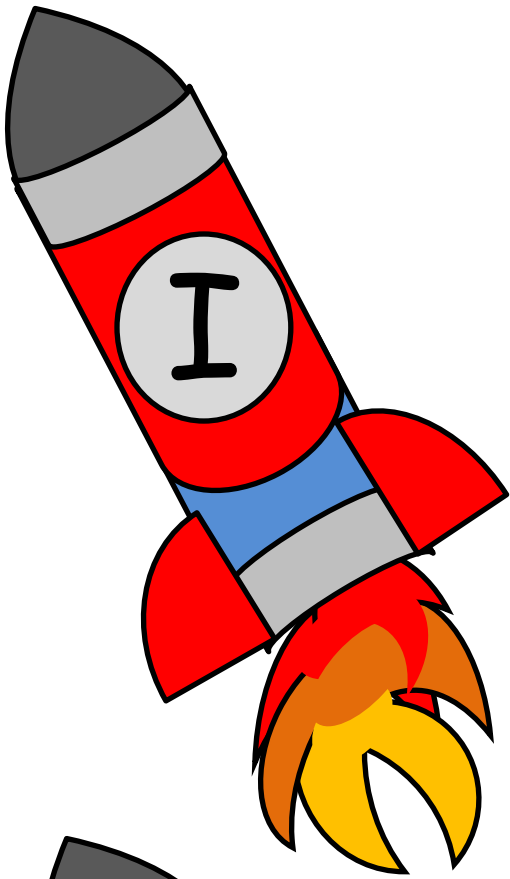

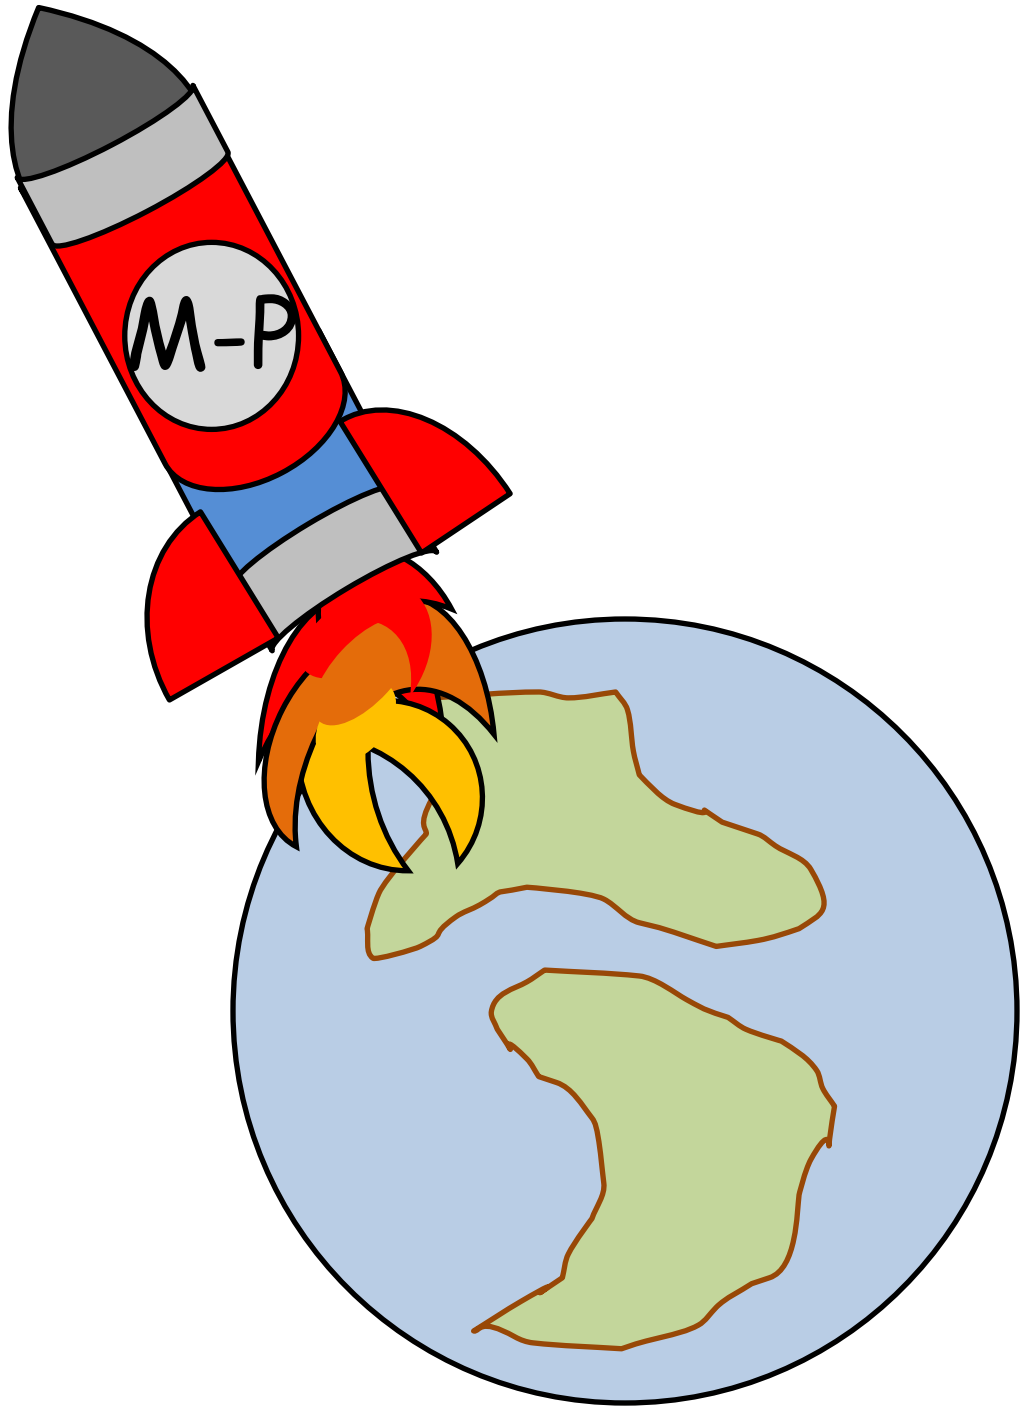

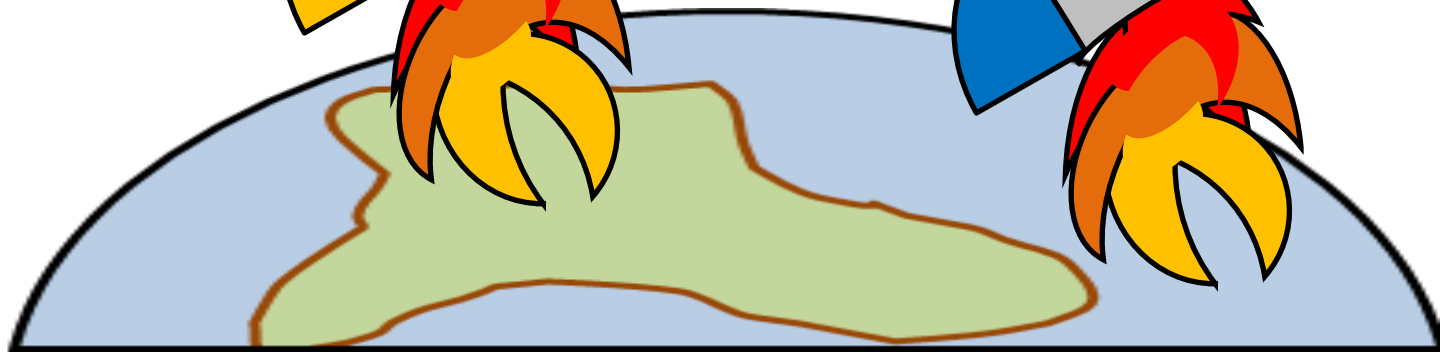

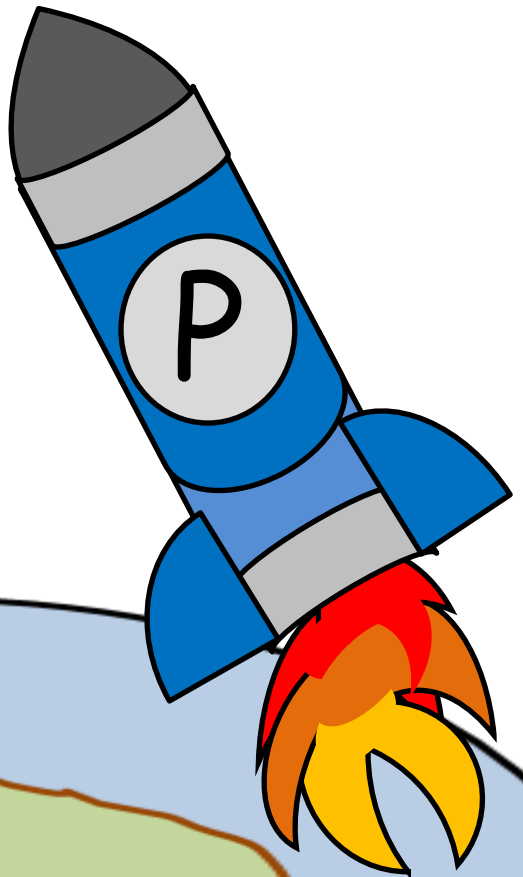

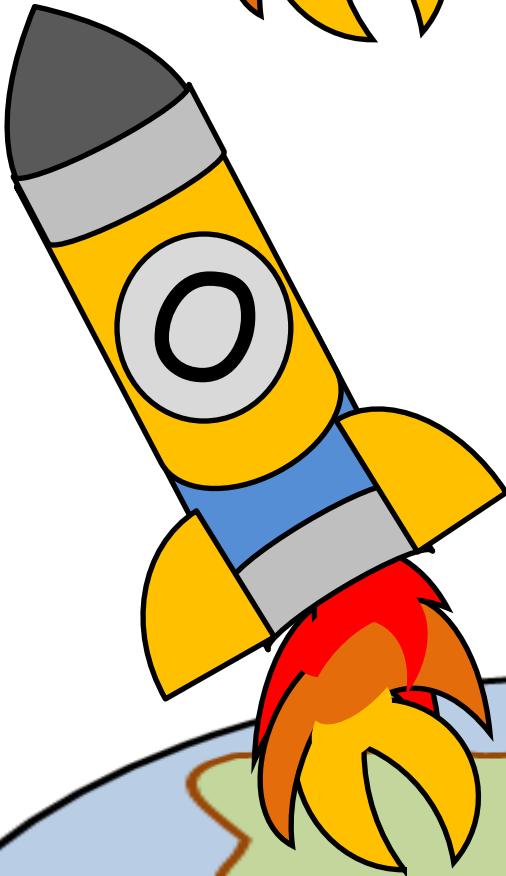

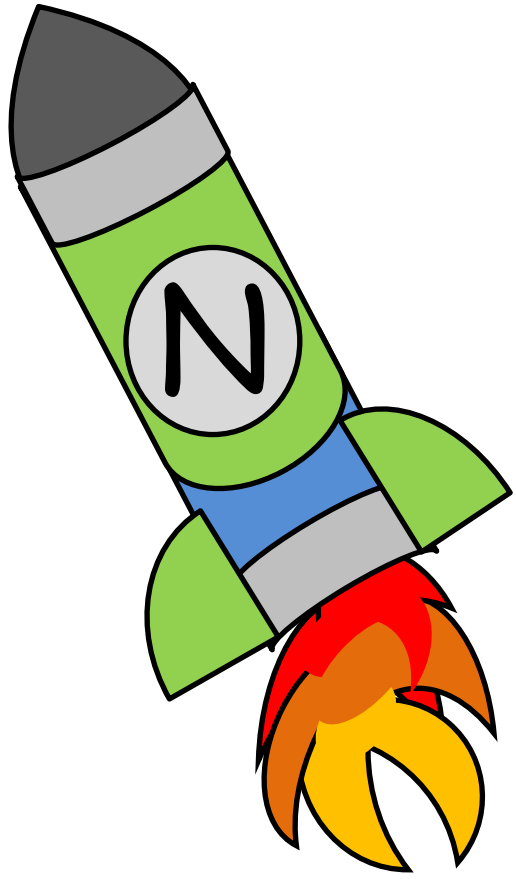

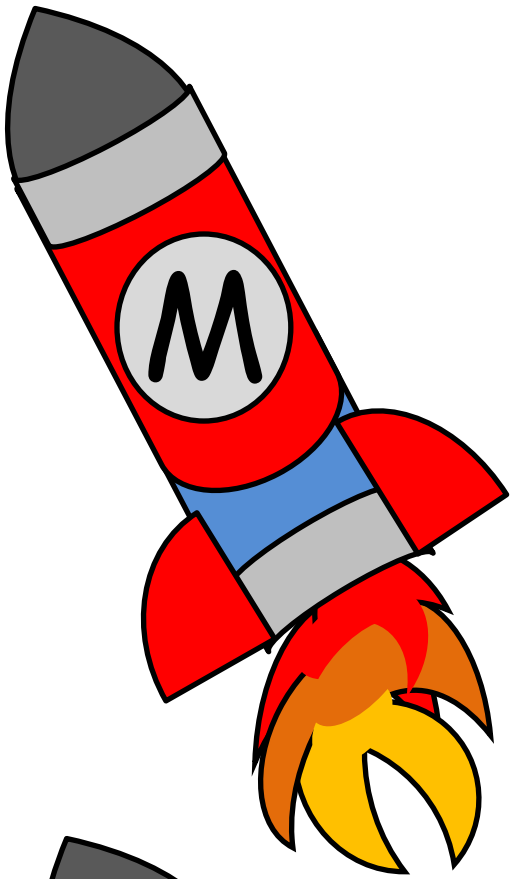

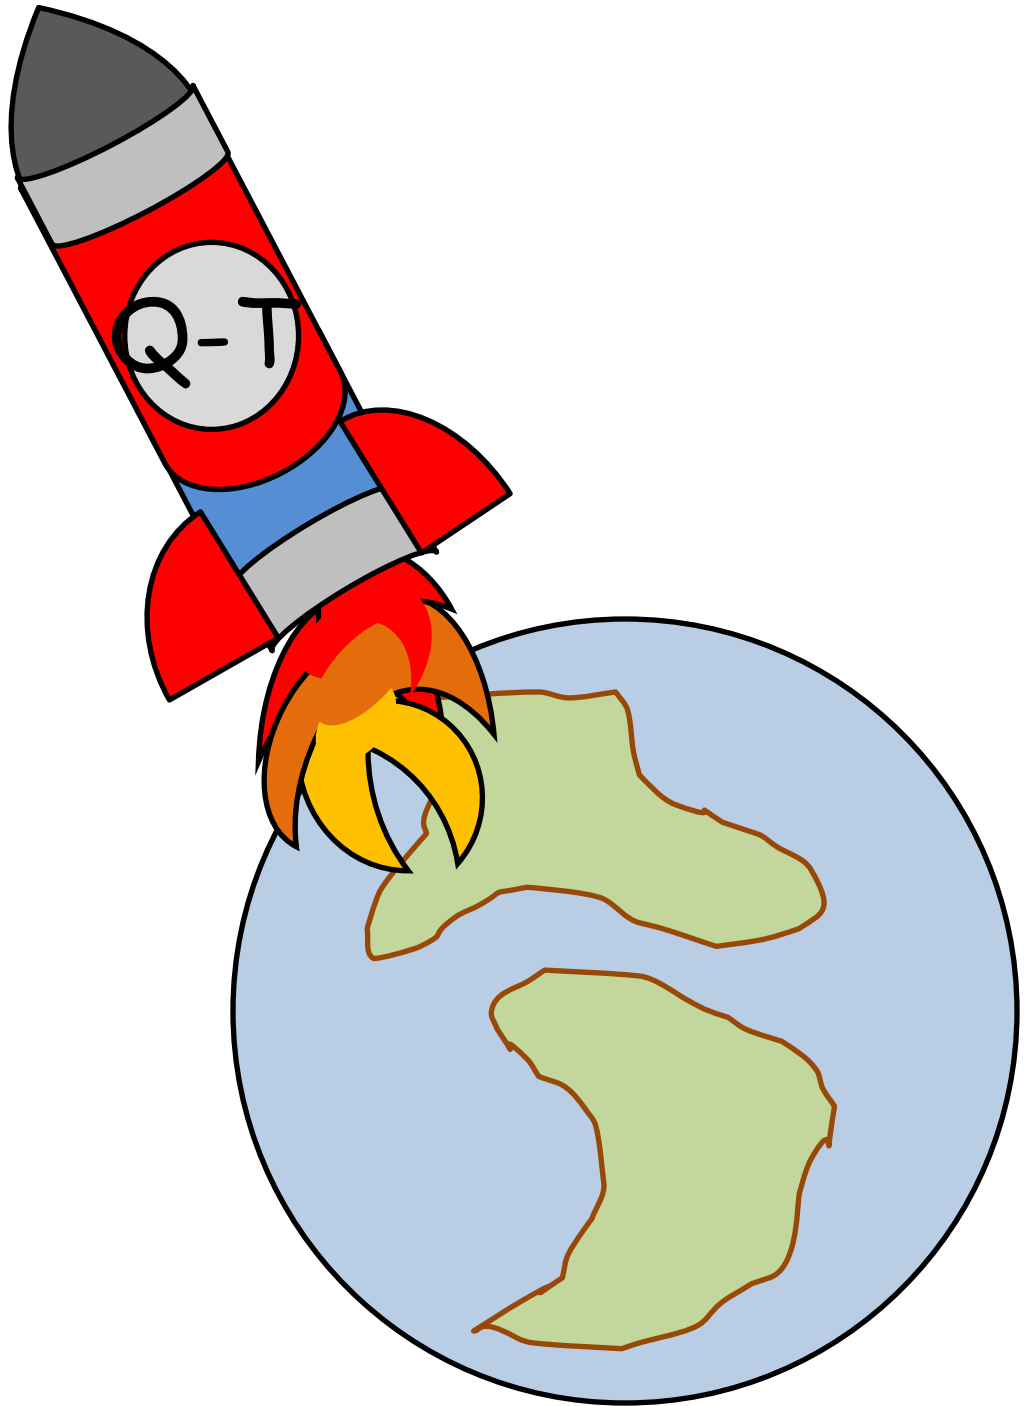

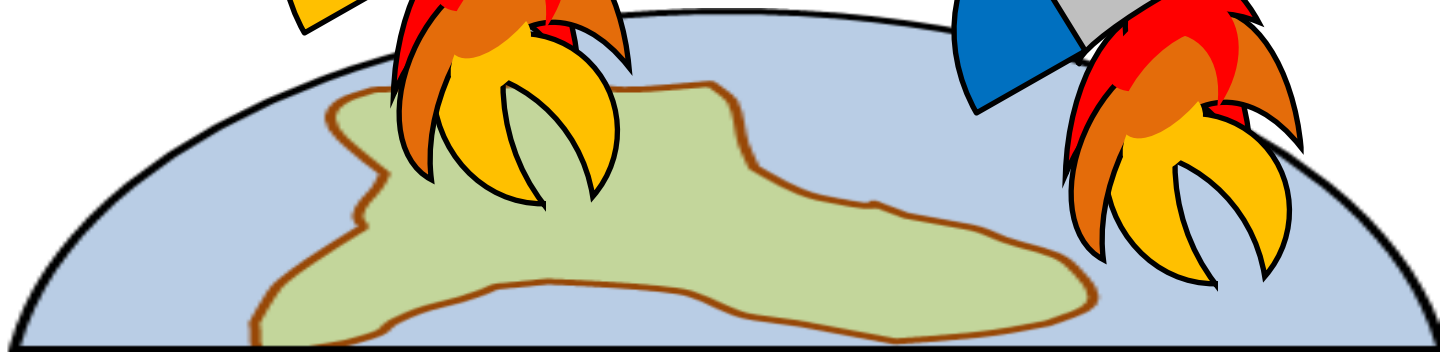

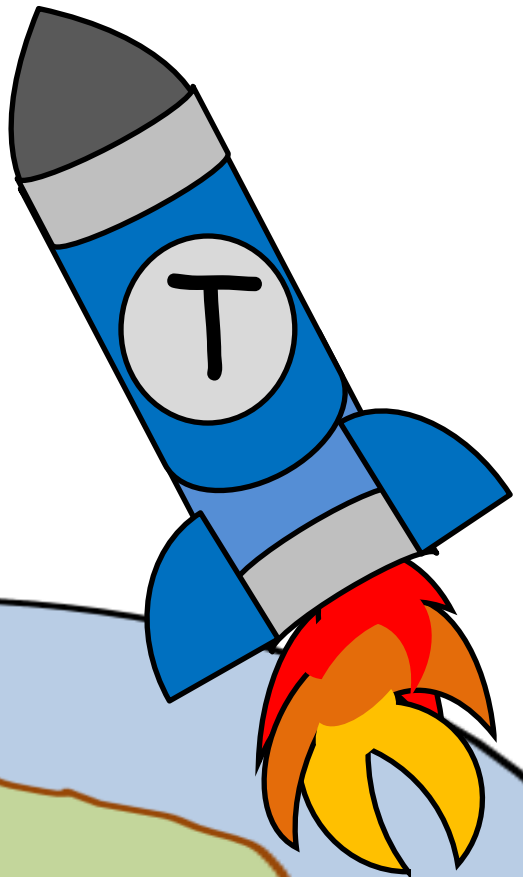

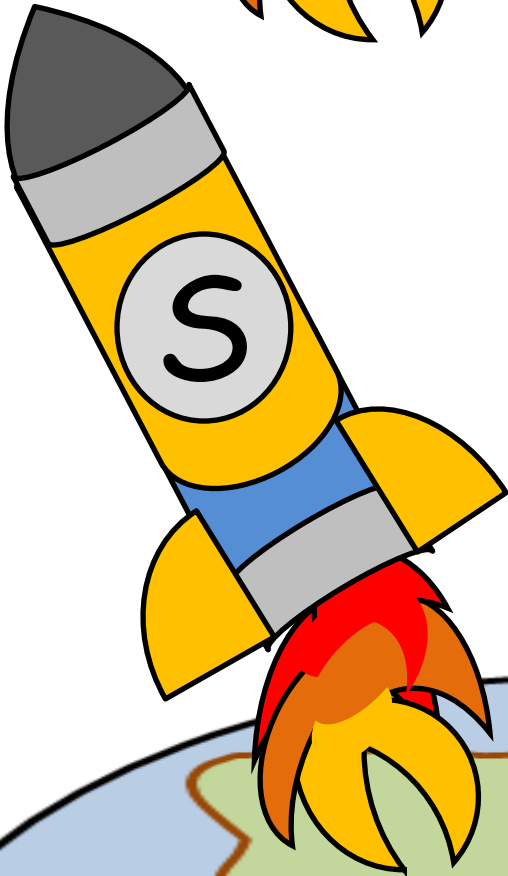

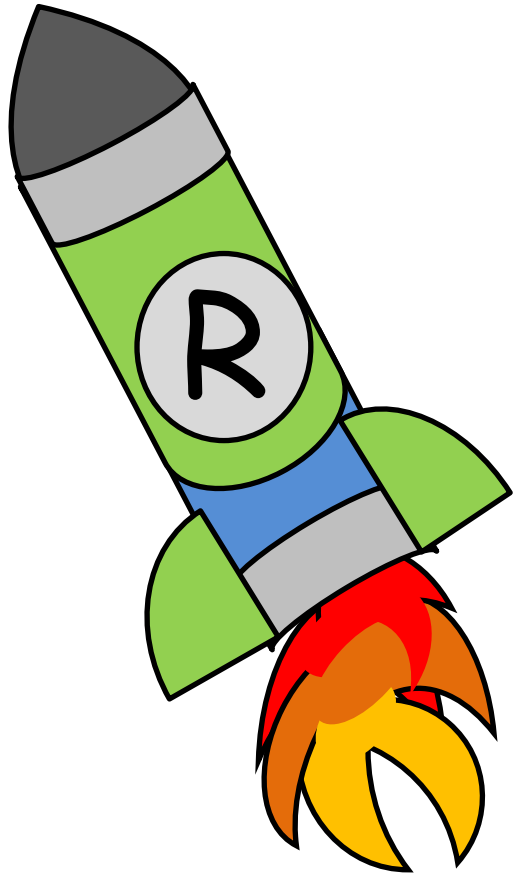

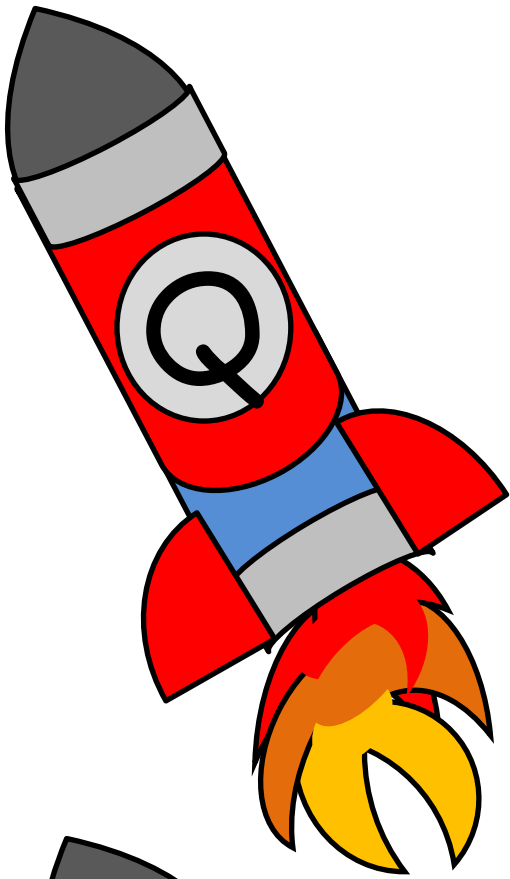

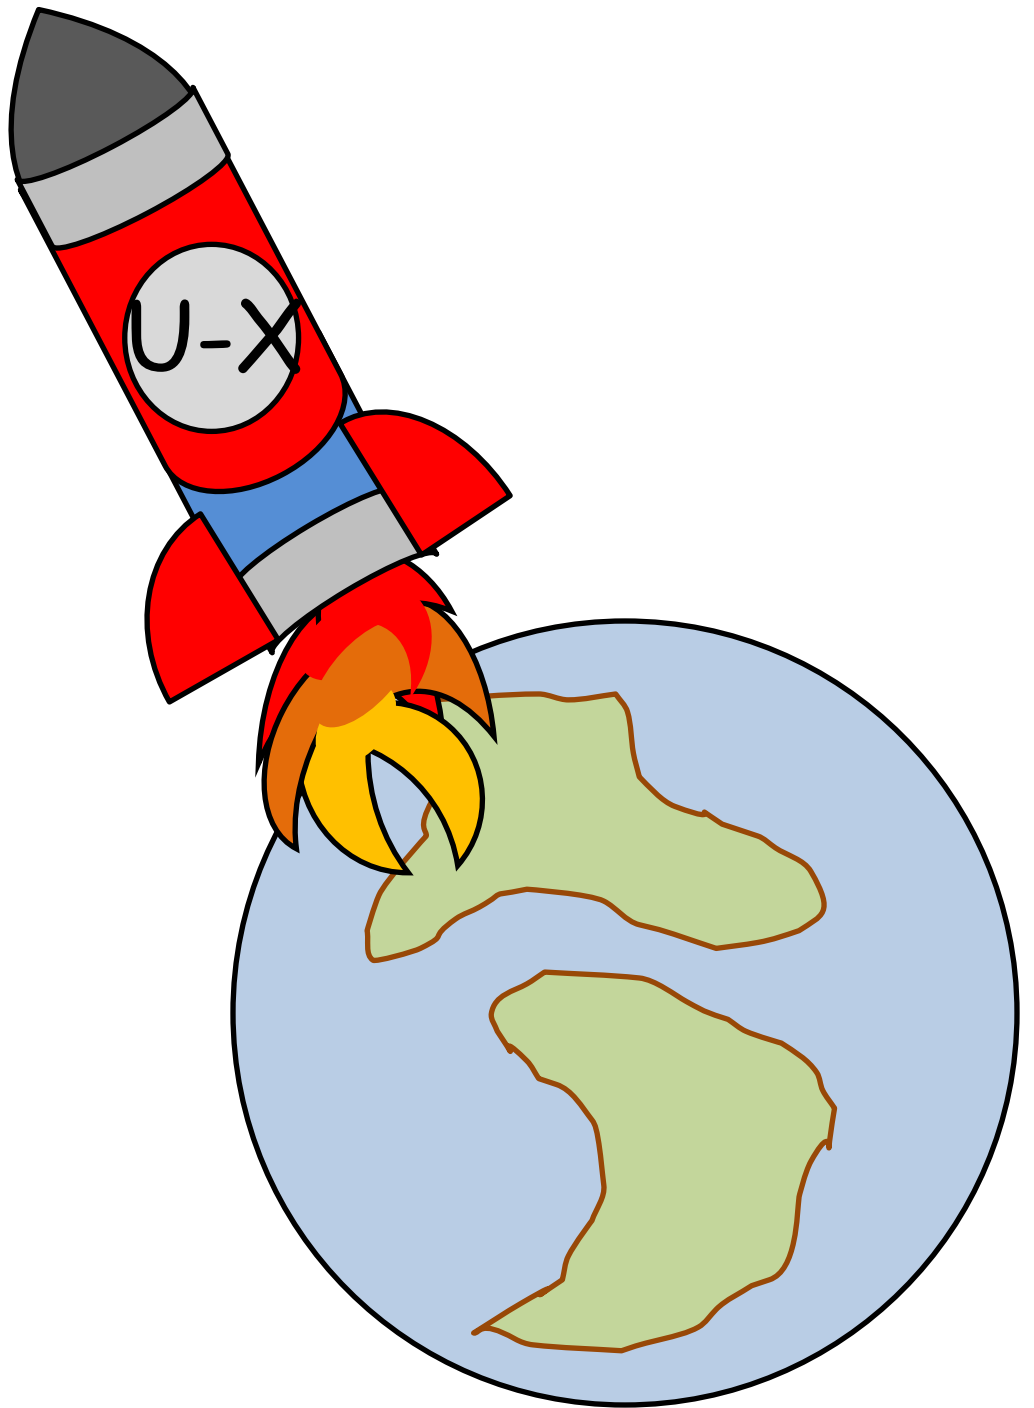

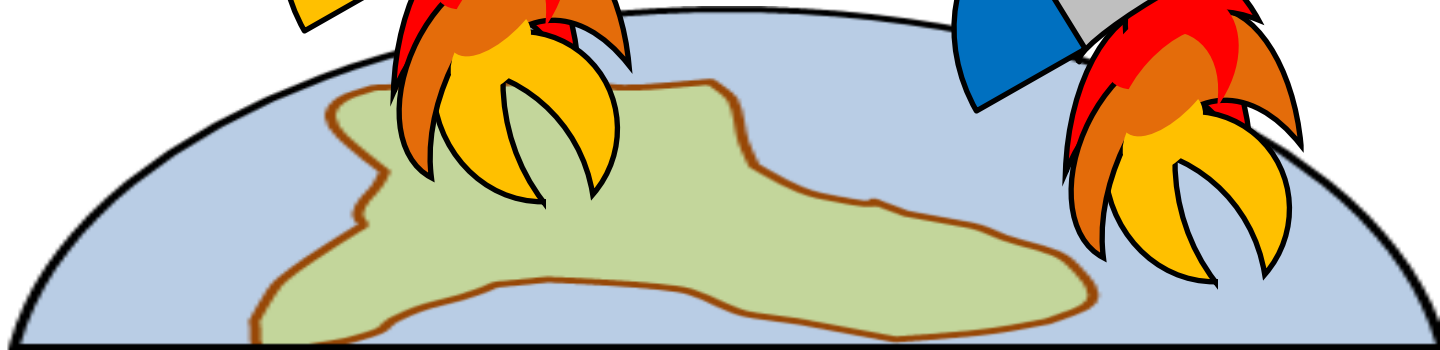

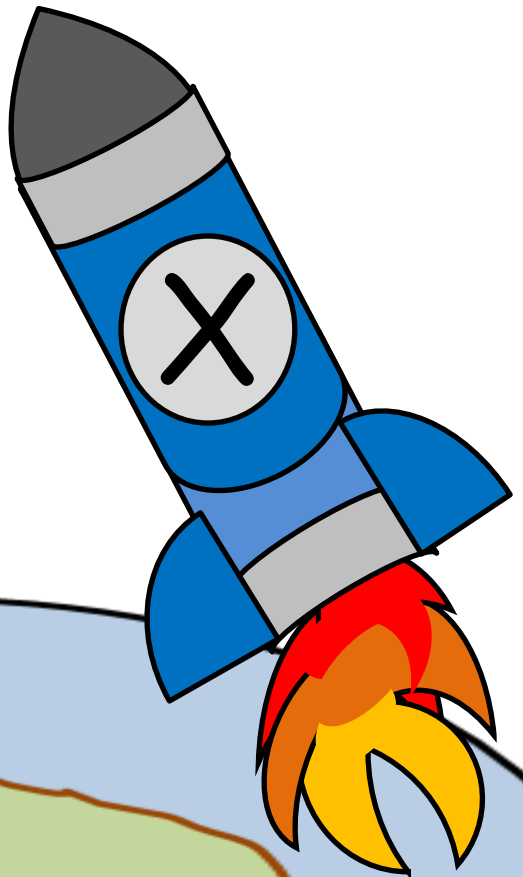

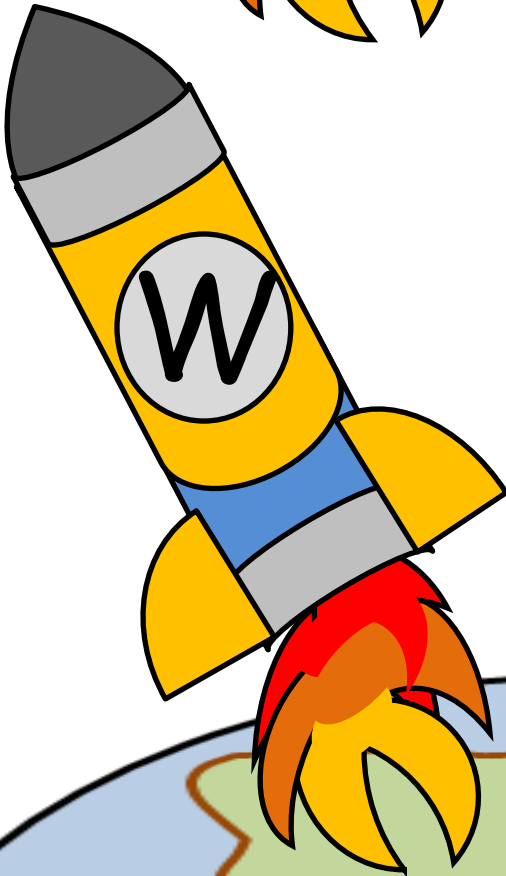

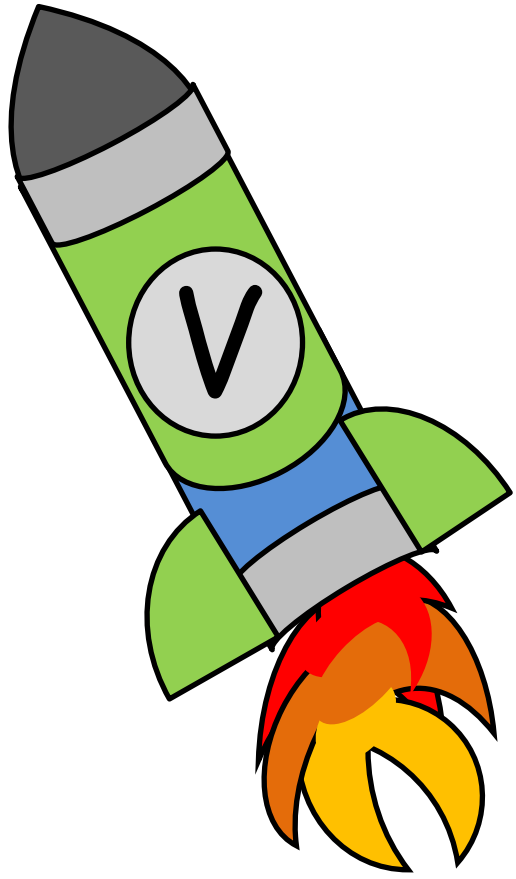

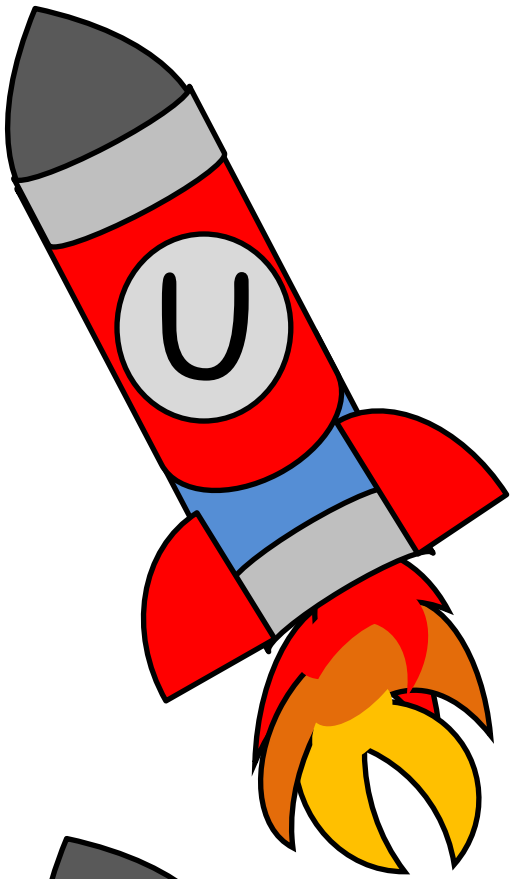

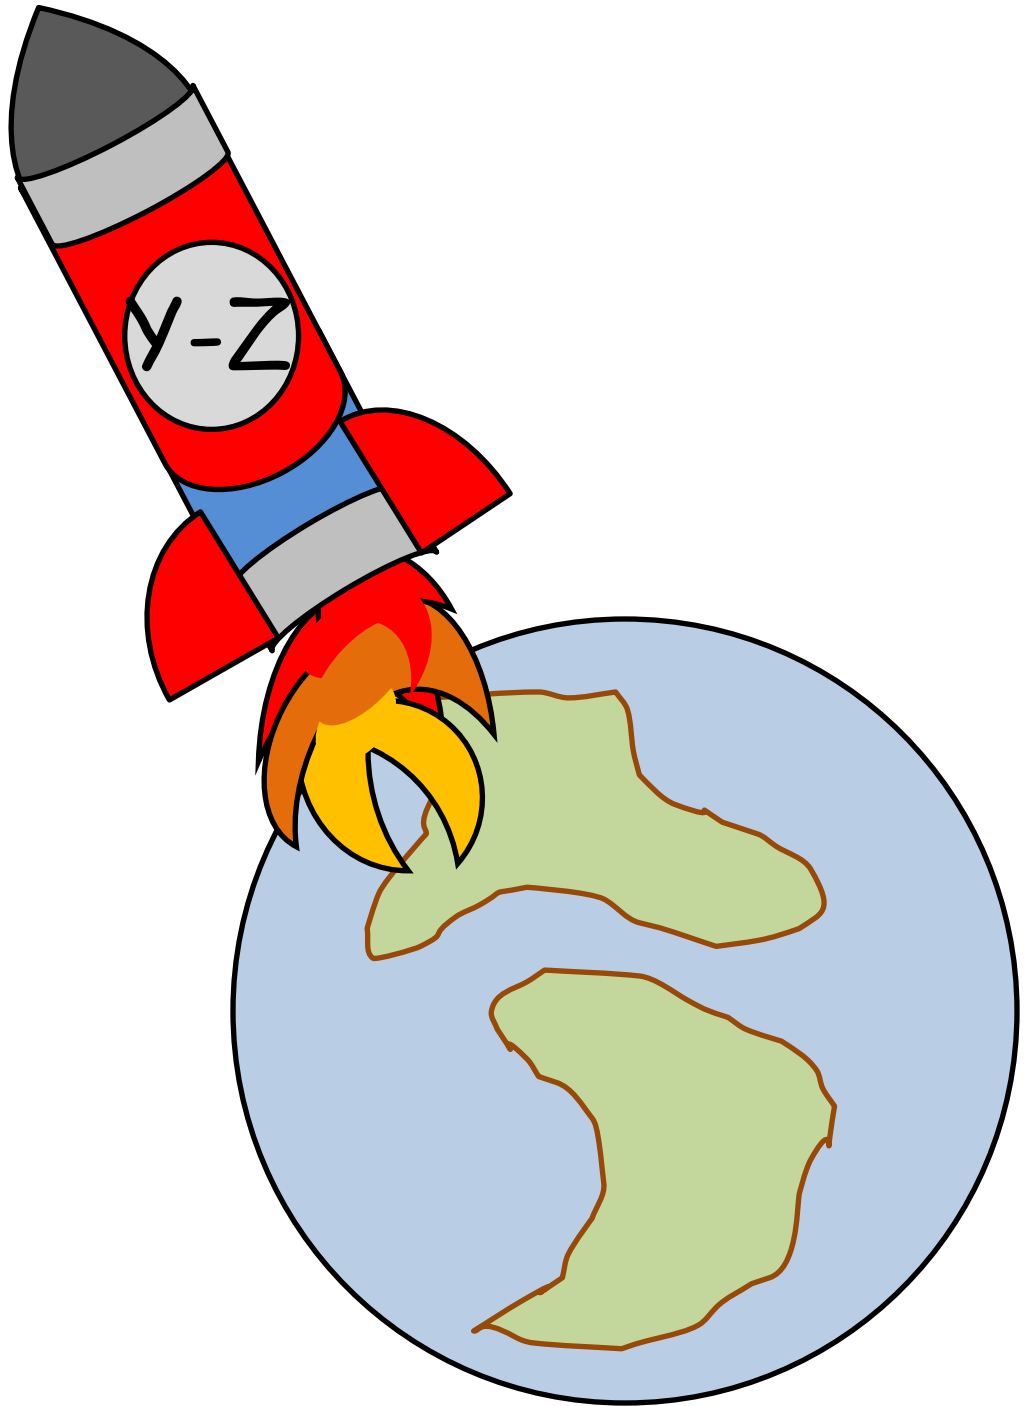

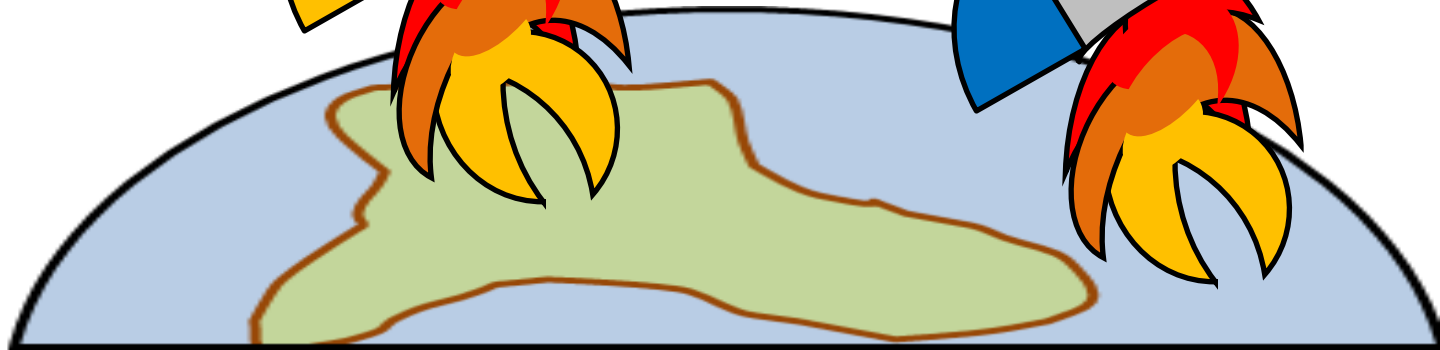

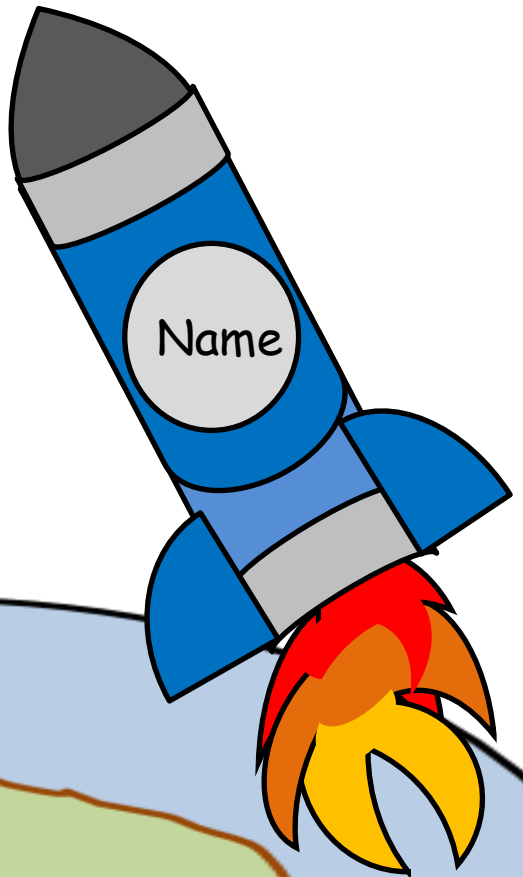

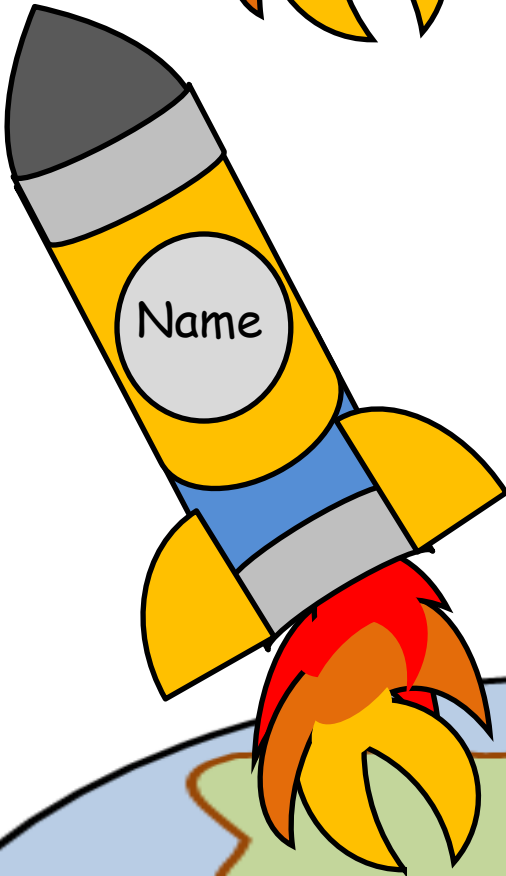

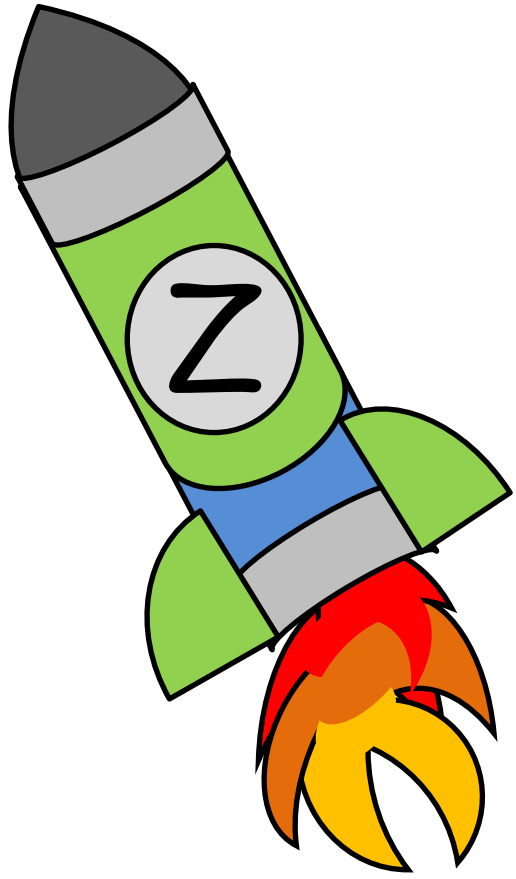

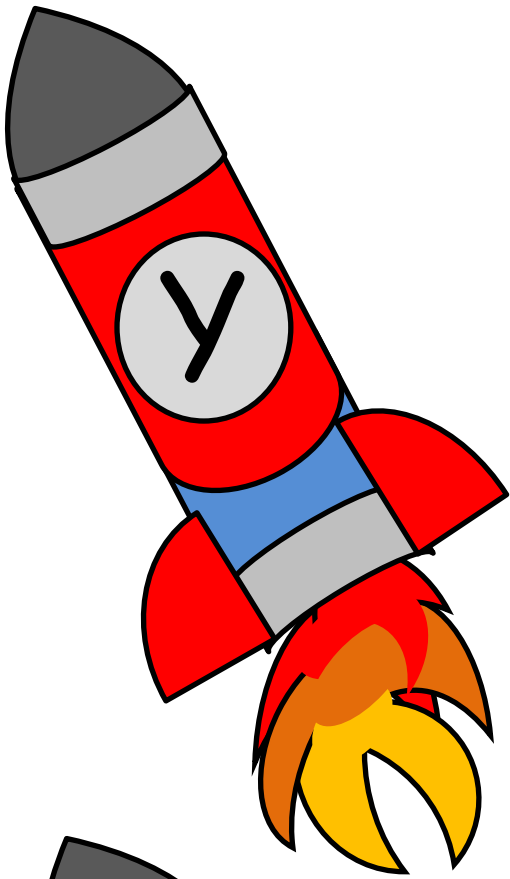

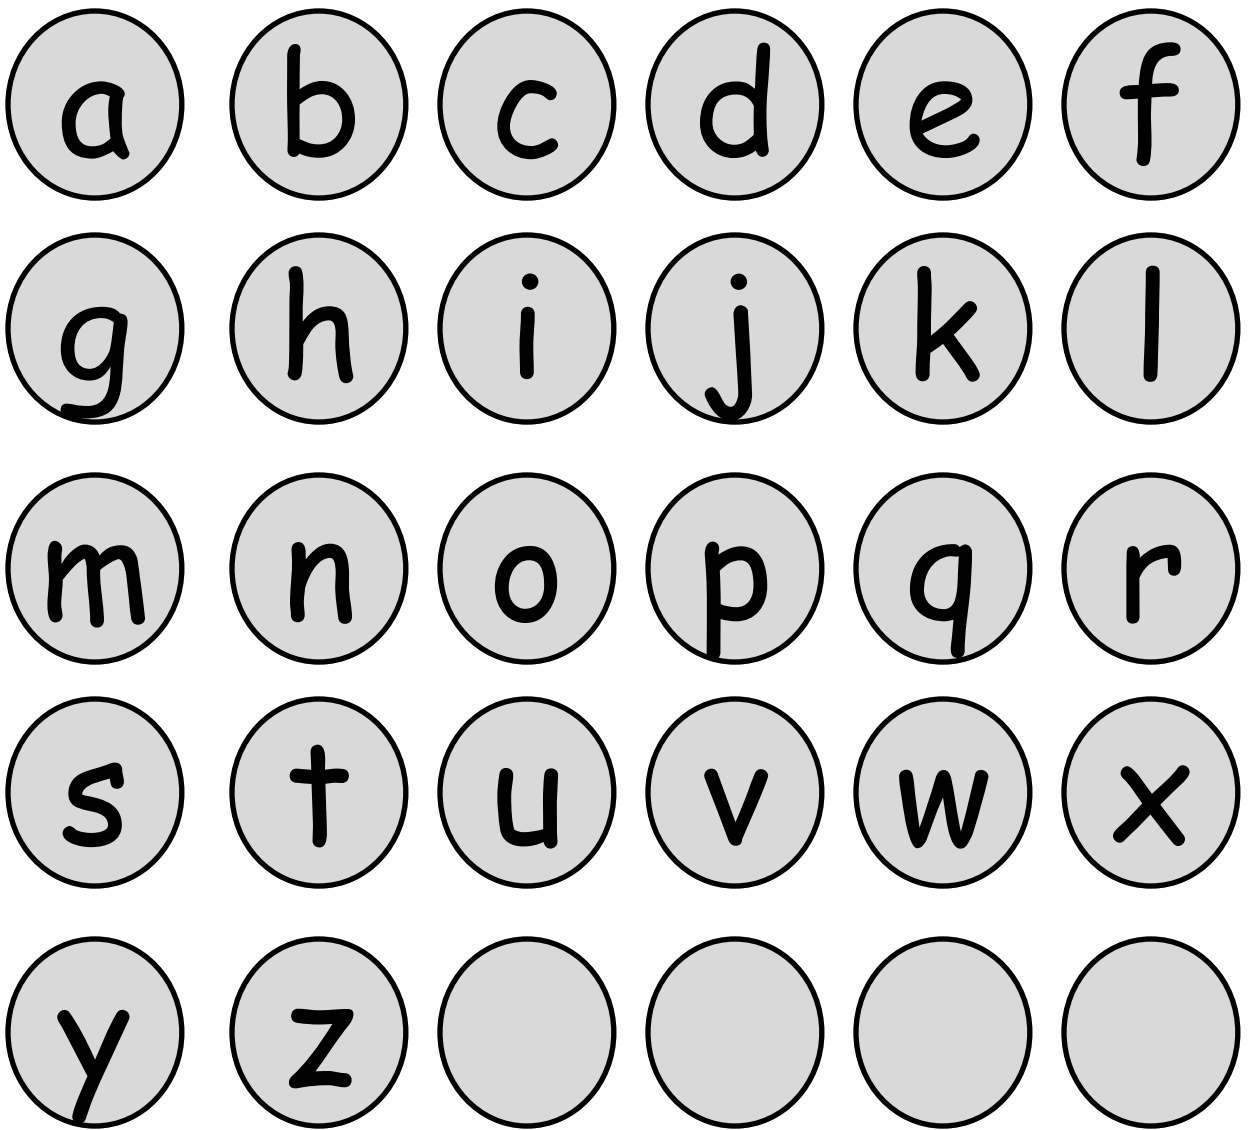

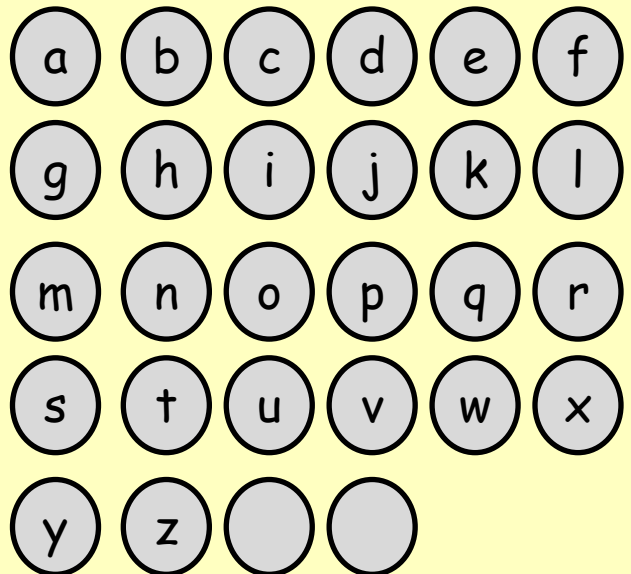

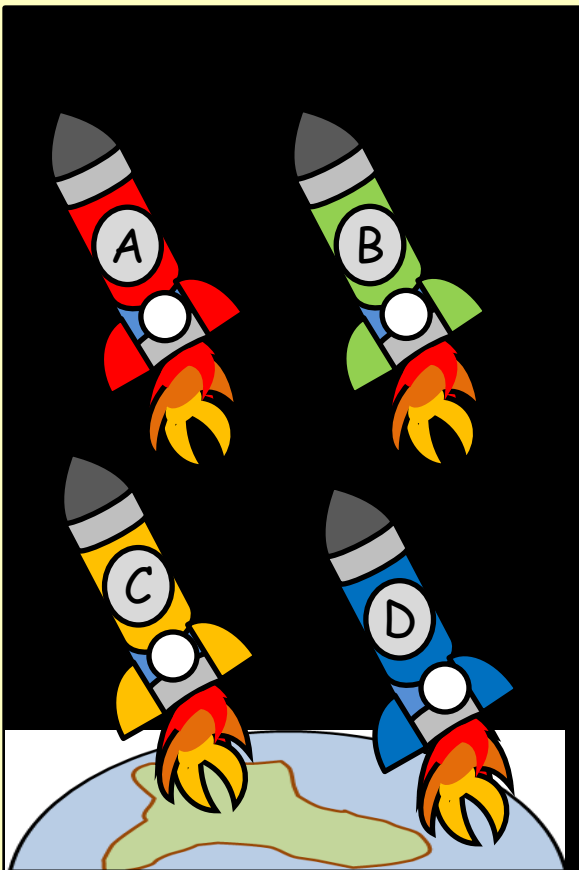

Put names of child in circles

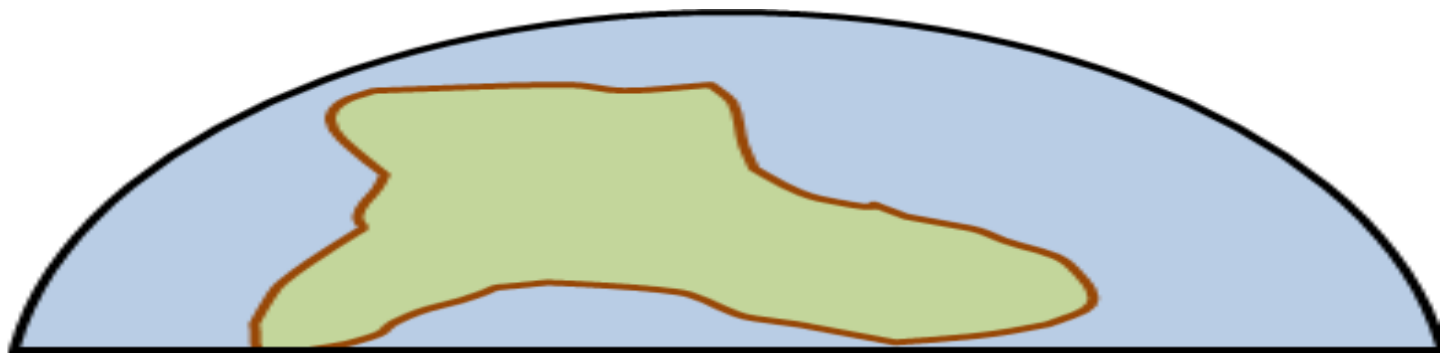

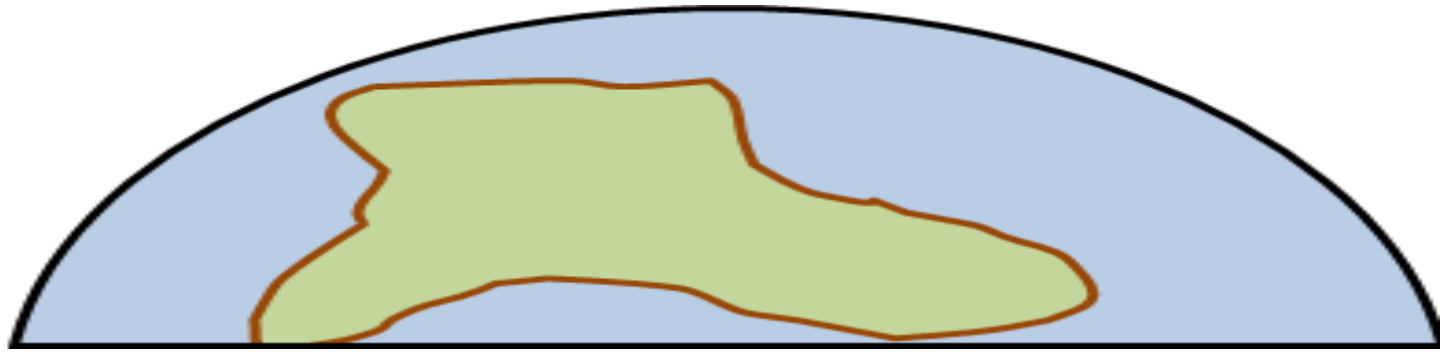

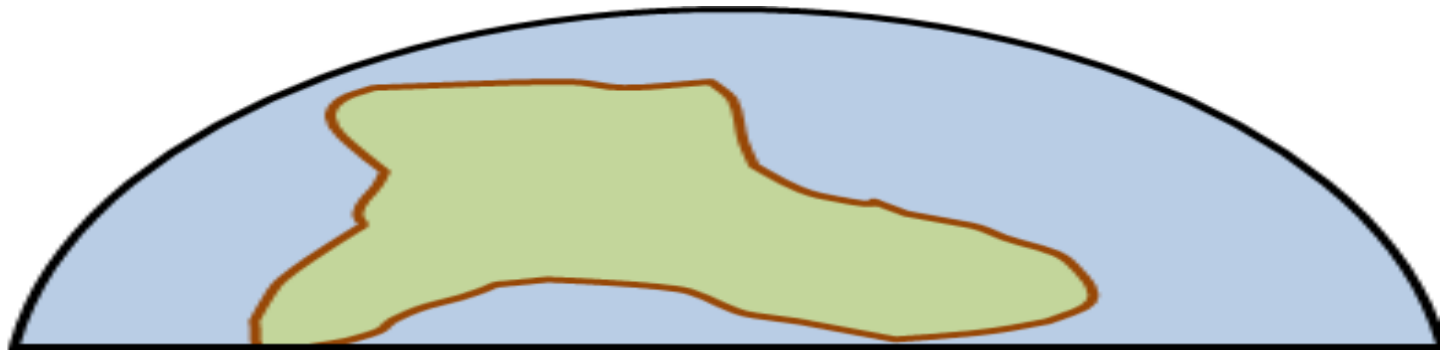

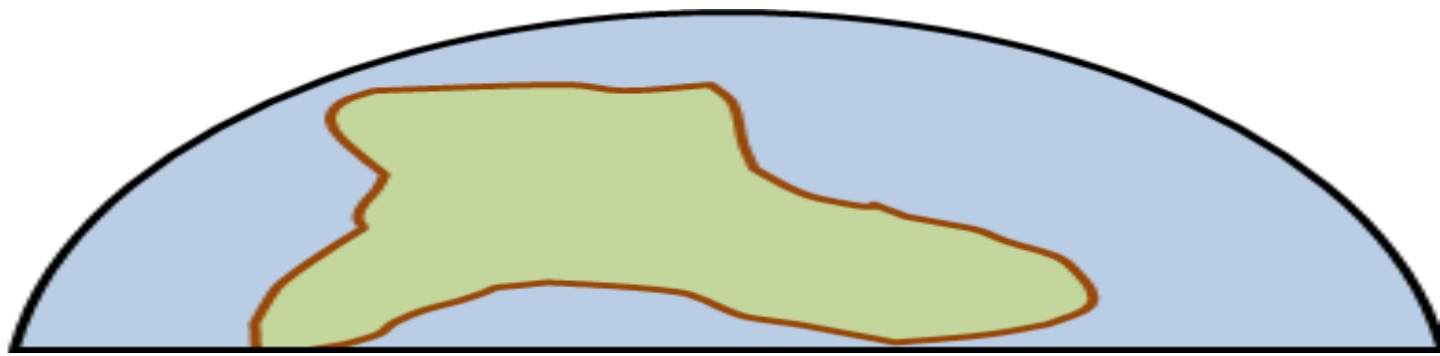

Rocket ship ABC Match

Instructions:

1. Print off Pages 1-15. Paste cover pages on file folders. You will need 7 file folders, OR you can put them in a three ring binder after laminated and you don't have to print off cover pages.
2. Paste ship's page on one side and mark where you want 26-28 spaced on the other side (holding page). Laminate. Put sticky Velcro (soft side) on ships as indicated, and on other side for 26-28 letters.
3. Cut lower case letters, laminate, cut, place sticky (rough side) in center. The blank circles are for a child's name, put name on before laminating.
4. You can use black construction paper for background, and you can put stars on it too for fun before laminating

Holding page ↓

Copy off 2 of the worlds if you are going to cut out ships and paste them on the black construction paper.
