Have a game board for each person playing.

Have a bowl of cereal for markers.

During the conference talks if a word on player's board is said during a conference talk or music, then that player places a marker on that word. Once the four words in that section are filled then the player gets any prophet card, (just one).

There are 4 sections on a game board.

Once a section is filled then they get another prophet card.

When a person receives all three presidency cards they win the game. They can choose another board to play on their same board removing their markers.
