"Our Heavenly
Father's Plan

Instructions: You may want to use card stock for black paper

Page 1: Sample

Page 2: copy and cut out cloud and earth. Paste on black construction paper.

Hole punch a hole in the cloud and one in the earth. String yarn through the holes, going all the way around the back and knot off.

Page 3: children copy and cut set of 8 girls, and 8 boys.

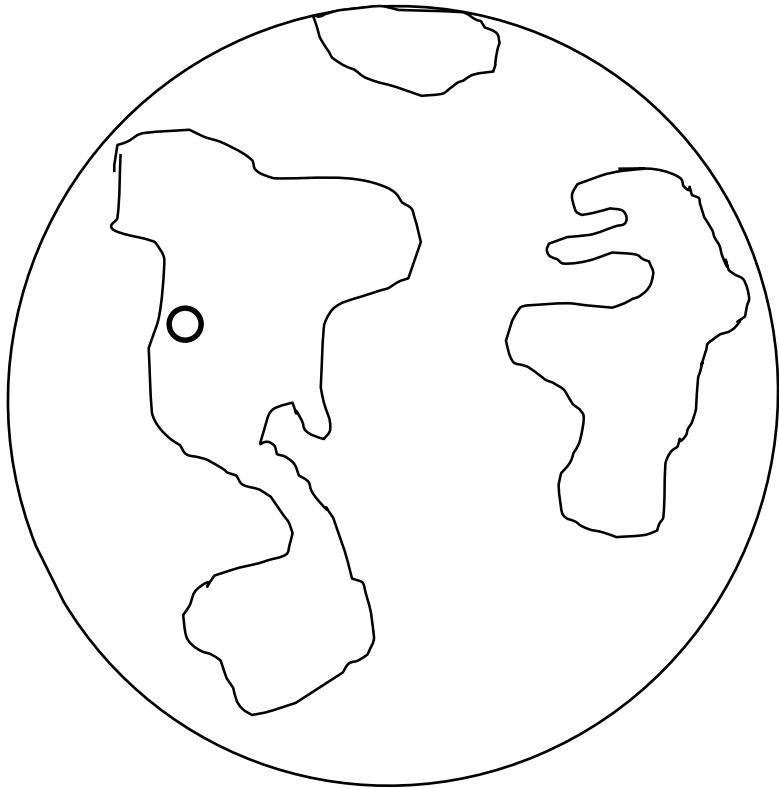

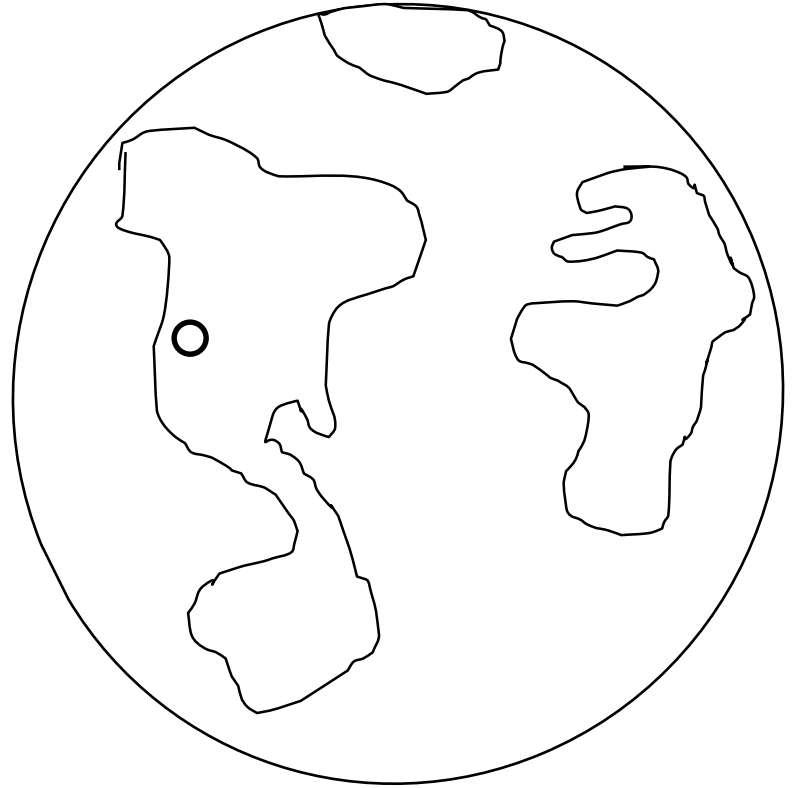

Page 4-5 Black and white. You could paste these on before and put the string on, then they could color it.

Only use one child and tape onto string. Make sure you can move the string back and forth from cloud to the earth, using the knot in the back to move it. I find that the knot and the child are on the same level. Example: knot at top, and child on other side at top.

This activity might require for you to do the cutting and pasting.

Give them stars stickers they can put on their paper. Or they can use a white crayons and make stars on the black paper
