Author of Genesis

Moses was a prophet who was called by God to lead the children of Israel out of bondage from Egypt, through the wilderness, to the promised land of Canaan.

Because the events in Genesis occurred before Moses's time, he did not learn about them firsthand. They were made known to him through revelation...

and he may also have relied on historical sources available to him.

Where Was It Written?

Some scholars date the writing to sometime between the 15th and 13th centuries BC.

We do not know exactly where Moses was when he wrote this book.
